Narayana College of Nursing:

The onset of sophisticated technology has resulted in hospitals becoming large intensive care units, with cardiac monitoring, respiratory assistance and intense treatment becoming a growing part of the average patient's plan of care. Today, hospitals face increased patient loads and escalating pressure to treat more people, more quickly. This in turn has led to growing demand for more skilled and specialized nurses, both in India and abroad.

Narayana College of Nursing aims to meet this critical challenge of preparing nurses for professional practice. At **Narayana College of Nursing**, students are inculcate the principles of Caring, Excellence and Integrity, and exposed to the finest of caring in conducive open learning environment, wherein they learn, grow, and flourish in the best dynamics of professional education.

With demographic changes over the coming decades expected to worsen the shortage of nurses and all health care all over the world, there is a tremendous demand for specialized nursing professionals. The future opens up immense opportunities and a sojourn with **Narayana College of Nursing** opens up with glorious prospects.

Narayana College of Nursing hosted 1st International Conference on "Group Dynamics in Nursing" on 26th & 27th July 2013. "2nd International Conference is on "Excellence in Oncology Nursing - Enriching Life" With great pride and honor, the **Narayana College of Nursing**, Chintareddypalem, Nellore, announces a three day 2nd International Conference on Excellence in Oncology Nursing (ICEON 2019) to be held on 18th - 20th July 2019 at **Narayana College of Nursing**, Chintareddypalem, Nellore - 524003.

In the past, the major cancer treatment was surgery, and the role of the nurse was limited to inpatient care of the surgical patient. As chemotherapy and radiation therapy evolved as treatment modalities, nurses looked upon for opportunities to providing to cancer care.

Last two decades have seen a revolution in the evolution of newer techniques in the area of cancer diagnosis, treatment and oncology nursing. Cancer survival rates have improved and nursing has experienced a shift that acknowledged the importance of professionalism in nursing. Over the years the practice of oncology nursing has attained the role of direct caregiver, educator, consultant, administrator, and researcher. Oncology nursing extends to all healthcare delivery settings from prevention, screening, treatment to palliation.

We cordially invite you to participate in this event and make the most use of the vast knowledge, experience of the learned faculty and advanced research in oncology. This is an opportunity for all nursing colleagues as well as nursing trainees, oncology researchers to update themselves.
