E-GOVERNANCE REPORT

E-governance in the education sector has transformed administrative operations through data-driven processes, making them more efficient, organized, and error-free. This user-friendly system saves time and costs while enhancing transparency, facilitating quick information sharing, and improving the efficiency of administrative institutions and public services across all areas of education. This year, the institution successfully implemented the following services:

Sl.no	Name of the service	Area of operation
1.	CCTV surveillance	The CCTV surveillance system enhances campus security by providing a comprehensive range of solutions to effectively protect the campus infrastructure.
2.	College management system	This software plays a crucial role in streamlining daily attendance and marking systems. Developed with advanced technology. It offers a flexible, integrated platform for students, teachers, administration, and other staff members. As a web-based application, it allows users to easily access it from anywhere using their login ID and password. This software is maintained by Nspira management services.
3.	Examination System: 1.Examination tool 2. Exam fee payment 3. Question paper generation . 4.
