VALUE ADDED COURSE ON EMERGING AND RE EMERGING DISEASES

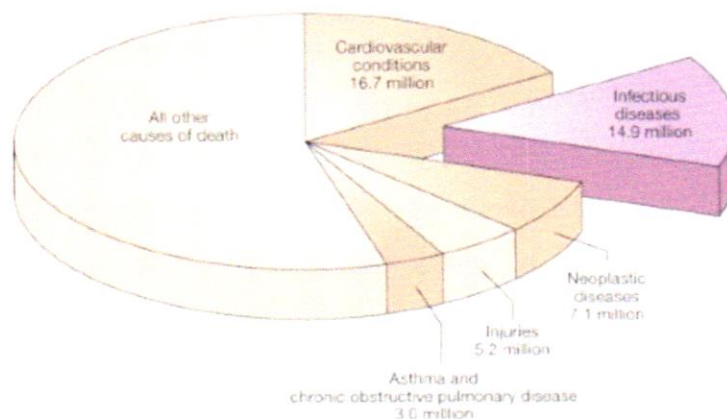

DATE: 21.06.2021 - 22 .06.2021

Department of Community Health Nursing had conducted the VALUE ADDED COURSE ZOOM Program On "Emerging and Re emerging Diseases "on 21-06-2021 and 22-06-2021(2 days) at 3rd floor Auditorium between 9-5pm. A total of and 62 students participated in the program.

Day-1: 21.06.2021

Pre-test knowledge of the participants were assessed through online mode before the scientific session. The programme started with prayer song by II year M.Sc. (N) students followed by welcome song by I year M.Sc. (N) students. Prof. B.Vanaja Kumari welcomed the gathering. Unfolding the theme for the programme was done by Prof. B.Vanaja Kumari, Vice principal /HOD Dept of Community Health Nursing, Narayana College of Nursing .

A general introduction on topic was given by the Nursing Dean with latest evidence based studies showing the importance of such researches. Prof. B.Vanaja Kumari stressed the Definition and incidence of emerging and re emerging diseases for Knowing new types of emerging diseases especially in present situation

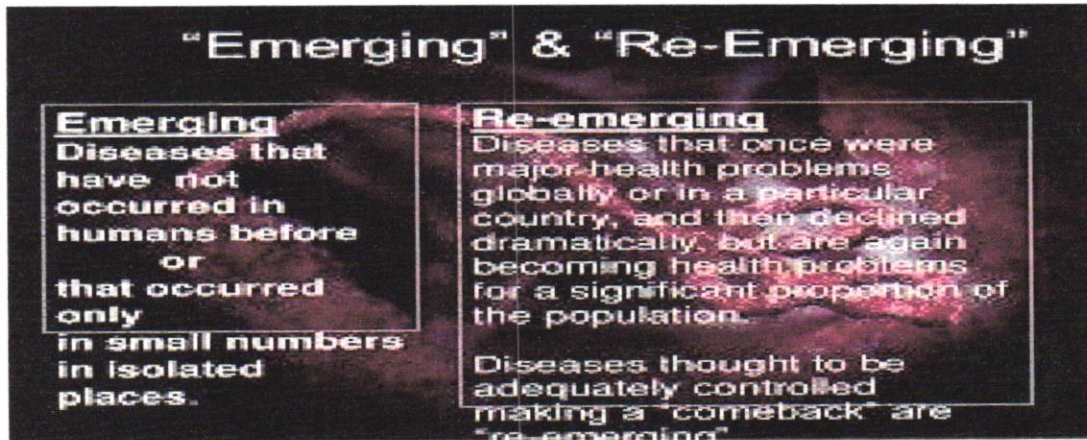

Infectious diseases	Annual deaths (million)
Respiratory infections	3.96
HIV/AIDS	2.77
Diarrhoeal diseases	1.80
Tuberculosis	1.56
Vaccine preventable childhood diseases	1.12
Malaria	1.27
STDs (other than HIV)	0.18
Meningitis	0.17
Hepatitis B and C	0.16
Tropical parasitic diseases	0.13
Dengue	0.02
Other infectious diseases	1.76

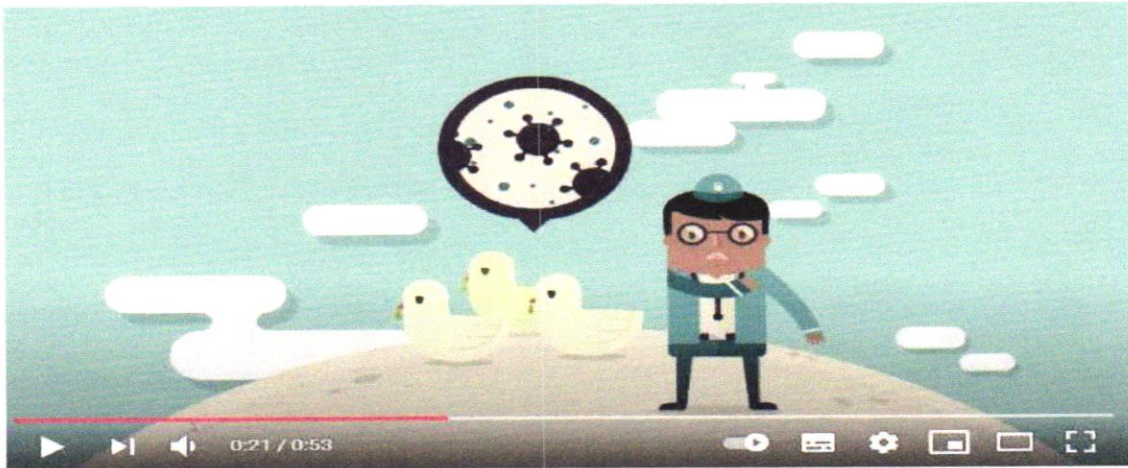

B. Vanaja
Principal
NARAYANA COLLEGE OF NURSING
Chinthareddypalem,
NELLORE - 524 003.

Significance of emerging and re emerging diseases were clearly explained by Mrs. Kantha

One video has shown on the "Significance of emerging and re emerging diseases"

Mrs. Anusha Asst. prof Dept of Community Health Nursing took the initiative in presenting an interesting session on Causes of emerging and re emerging disease which covered the areas like Covid virus, Black fungus

B. Anusha
Principal
NARAYANA COLLEGE OF NURSING
Chinthareddypalem,
NELLORE - 524 003

Emerging infections can be caused by:

Previously undetected or unknown infectious agents
Known agents that have spread to new geographic locations or new populations
Previously known agents whose role in specific diseases has previously gone unrecognized.

Re-emergence of agents whose incidence of disease had significantly declined in the past, but whose incidence of disease has reappeared.

This class of diseases is known as re-emerging infectious disease

Dr. T. V. Rao MD

11

Prof. B. Vanaja Kumari, Vice principal /HOD Dept of Community Health Nursing continued the session with the Factors of emerging and re emerging disease. Relevant videos and images were shown to make the session more interesting.

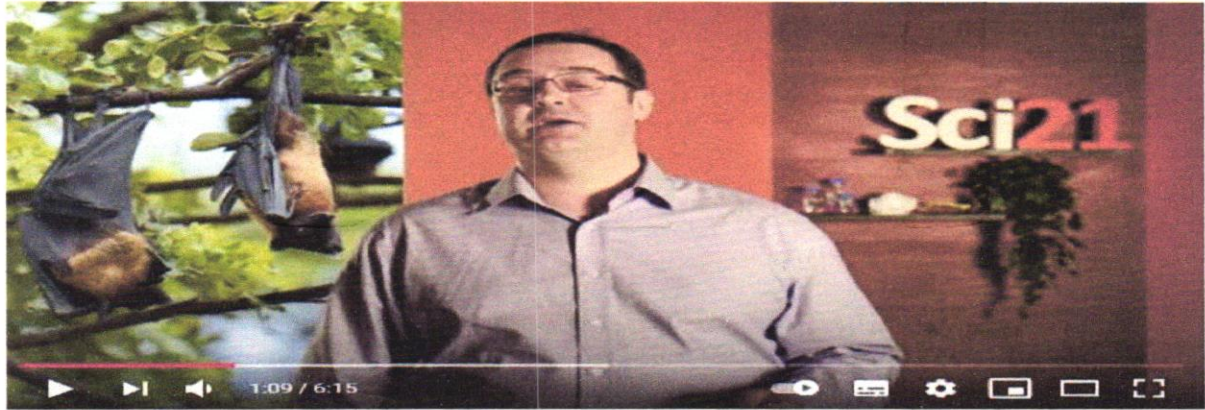

Factors Contributing To Emergence

HOST

- Human demographic change (inhabiting new areas)
- Human behaviour (sexual & drug use)
- Human susceptibility to infection (Immunosuppression)
- Poverty & social inequality

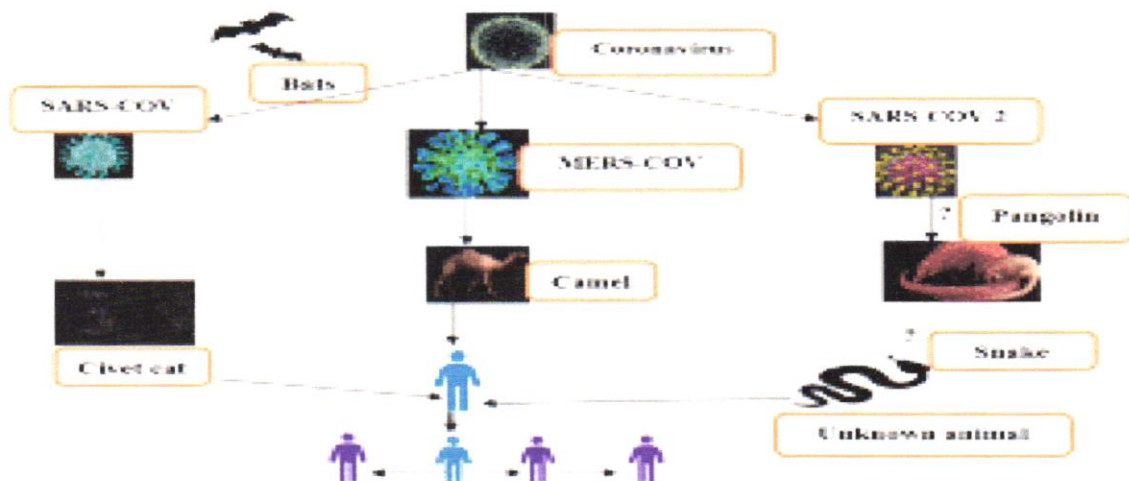

B. Vanaja Kumari
Principal
NARAYANA COLLEGE OF NURSING
Chinthareddypalem,
NELLORE - 524 003.

First day session came to an end with Summarization of all Sessions by Prof. Vanaja kumari

Day 2: 22.06.2021 Programme began with the Recapping of the previous day session. Scientific session on Transmission of emerging and re emerging disease by Prof. Vanaja Kumari , highlighted regarding the Transmission ways, methods,types,

B. Anny
Principal
NARAYANA COLLEGE OF NURSING
Chinthareddypalem,
NELLORE - 524 003.

Pathogenic microbes can be resilient, dangerous foes. Although it is impossible to predict their individual emergence in time and place, we can be confident that new microbial diseases will emerge. Preventive measures for re emerging disease and WHO

recommendations for control and prevention of emerging and re emerging disease were discussed by Mrs.Anusha with Video presentation.

Medical Anthony Fauci, M.D.
Editor on Harrison's Principles of Internal Medicine, 18e

0:14 / 2:35

Prevention of Emerging Infectious Diseases Will Require Action in Each of These Areas

- Surveillance and Response
- Applied Research
- Infrastructure and Training
- Prevention and Control

CDC

While disease outbreaks and other acute public health risks are often unpredictable and require a range of responses, the International Health Regulations (2005) (IHR) provide an overarching legal framework. various International health regulations were discussed by Mrs. Kantha with Videos.

The international health regulations evolution

- The International Health Regulations originated with the International Sanitary Regulations adapted at the International Sanitary Conference in Paris in 1851.
- The cholera epidemics that hit Europe in 1830 and 1847 made apparent the need for international cooperation in public health.
- In 1948, the World Health Organization Constitution came about.

Quiz was conducted on International health regulations in which Ms .Ansu thomas and MS.Fathima Hussian from II year got the first and second prize respectively.

“The Role of the National Epidemic Alert and Response System” were discussed by Prof. VanajaKumari

WHO system of Global Outbreak Alert and Response Network GOARN Operations

“National surveillance on current situation” was discussed by Mrs. Anusha.

National Surveillance Programme for Communicable Diseases (NSPCD)

NSPCD was therefore launched by the Centre in 1997-98 in five pilot districts of the country (centrally sponsored scheme) and over the years extended to cover 101 Districts in the country in all 35 states and UTs in the country.

At the end of all the above speeches Prof. Vanaja Kumari Vice Principal, NCON summarized the whole topic and involved the audience too in bringing up their view points during the discussion. Post test and Feedback was conducted followed by vote of thanks given by Mrs. Anusha and the programme ended with National anthem.

Table 1: Frequency and percentage distribution of level of knowledge on Emerging and Re emerging Diseases among faculty

N = 62

GRADE	PRE-TEST		POST-TEST	
	F	%	F	%
A+	6	10	35	56
A	15	24	20	32
B	20	32	5	8
C	15	24	1	2
D	6	10	1	2
TOTAL	62	100	62	100

The result showed that, among 62 participants, in pre-test 6(10%), had A+ Grade, 20(32%), had B Grade, 35 (30%) had C Grade, 15(24%) had Grade D. Whereas in post-test, 35(56%) had A+ Grade, 20(32%) had A Grade, 5(8%) had B Grade, C Grade 1(2%), and D Grade 1(2%). Hence, it was concluded that, Value added course On "Emerging and Re emerging Diseases" was effective in improving the participant's level of knowledge on Emerging and Re emerging Diseases. Value added course On "emerging and re emerging diseases" was effective in improving the participant's level of knowledge on emerging and re emerging diseases.

REPORT VALUE ADDED COURSE ON YOGA FOR HOLISTIC HEALTH

Date: 03.01.2022 to 24.01.2022

Narayana College of Nursing conducted a 16-hour Value Added Course on Yoga for Holistic Health to II Year B.Sc.(N) and II PBB.Sc.(N) Students every day for one hour 5-6 pm From 03.01.2022 to 24.01.2022. The classes were divided between 8 hours of theory and the remaining 8 hours of Asana demonstration. This course has a great influence on students' health. First day of The program began with the prayer song by the students and keynote by Dr.Indira A,Principal and other distinguished guests.

Students gained knowledge and grasped the significance of yoga. They realized that yoga is a way of life. Yoga is a science, not a religion, that seeks to unite the mind, body, and soul. It is also an art of living correctly. Yoga practices are very practical, therefore they can be used at any time. students were practicing yoga and it was useful for them to inculcate this knowledge and practice in their personal life as well as in the hospital to educate the patients.

Mrs. Kantha Associate professor conducted the classes. Basic knowledge like types of yoga, systemic effects of yoga on the human body etc. as per syllabus points were covered. Students were practicing daily Surya Namaskar and breathing exercises etc.

Chinthareddypalem,
NELLORE - 524 003

A. S. Reddy
Principal
NARAYANA COLLEGE OF NURSING
Chinthareddypalem,
NELLORE - 524 003

All yoga practices help students to maintain their health in a healthy condition. students practice is also evaluated by the trainer. Active participation from students was seen during the course and they enjoyed the actual values of yoga. Post test was conducted to the students to assess the level of understanding. Feedback were collected from all the participants.

**VALUE ADDED COURSE ON
HEALTH CARE QUALITY MANAGEMENT**

Date: 07-05-2022 TO 12-05-2022

Total allotted hours: 30

AIM OF THE COURSE

The course will enable the students to develop techniques for measuring quality and safety, collecting and analyzing appropriate data, and using the resulting information to improve health services and leadership skills in personal and professional efficiency related to health care.

OBJECTIVES OF THE VALUE ADDED COURSE

The students will be able to

1. Understand quality and factors that affect consumer perceptions of quality in health care.
2. Recognize the quality characteristics important to healthcare consumers, purchasers, and providers
3. Understand the relationship between cost and quality in health care.
4. Understand the external forces that influence healthcare quality management activities.
5. Understand how healthcare quality is measured, assessed, and improved.
6. Understand PDCA model and other frameworks commonly used in improvement initiatives.
7. Students learn how improvement teams are formed and managed common causes of project failure and recommend ways to achieve improvement goals effectively.
8. Students able to do Root Cause Analysis to improve patient safety, and describe patients' role in reducing adverse events
9. Understand the role of a supportive organizational culture in the quality process and cultural factors that can advance or inhibit achievement of quality goals.

VALUE ADDED COURSE
ON ANTI MICROBIAL STEWARDSHIP
MAY 2022

Date: **14-05-2022 TO 19-05-2022**

Total allotted hours: **30**

AIM OF THE COURSE

The course will enable the students to rationalize the use of antibiotics and reduces antimicrobial resistance in wellness promotion and illness prevention, treatment and safe administration of Antibiotics.

OBJECTIVES OF THE VALUE ADDED COURSE

The students will be able to

- To understand rationalize the use of antibiotics and prevent emergence of resistance in various settings.
- Improve patient care and safety in relation to the use of Antibiotics and all medical and paramedical interventions;
- Improve public health and safety in relation to the use of Antibiotics;
- Encourage the safe, rational and more effective (including cost-effective) use of medicines.
- Limiting the over-the-counter use of antibiotics, restricting the use of antibiotics as growth promoters in livestock.
