## REPORT ON CENTRAL LABORATORY VISIT

DATE: 20/02/2020

### INTRODUCTION:

The Central Clinical Laboratory (built area; 40,000 Sq.ft) – is operational since 1999 in the seventh floor of Narayana Super Specialty Hospital. It has three major divisions viz., Biochemistry, Microbiology and Pathology, offering diagnostic services (24/7/365 days) to patients and research services to students and faculties of Narayana Medical and allied colleges, as well to other institutions. Nearly 100 Laboratory professionals including – Consultants (Physicians), Scientists, Lab Technicians, Data entry operators and Sample Transport Messengers are involved in day to day services. The Central Lab has the following dedicated patient service areas such as – patient registration, blood collection room (accommodates 6 patients in a given time), urine and stool collection rooms.

In addition to its diagnostic services; lab supports academic activities such as teaching the principles and standard operating procedures (SOP) of a clinical lab to the medical and para-medical under-graduates. They were also given hands on experience on instrument operation, data-collection and –interpretation.

### OBJECTIVES:

- To improve knowledge on laboratory equipment's, procedures and normal values.
- Providing students functional opportunity in laboratory.
- To provide students an insight of the practical applications of what they are learning in theory.
- To develop state of art facility, in terms of quality infrastructure & trained manpower which enables the students of various UG& PG courses to appreciate the basic etiology, Immuno-pathogenesis & diagnosis of common infectious diseases.
- To impart teaching programs for undergraduates and post graduates.
- To deliver quality, timely, accurate diagnostic services to all the patients.
- To create an environment for "Need Based Quality Research" among Students"
- To provide students with an opportunity to learn practically through interaction and working methods.

The chemicals and reagents required for the diagnosis were stored in the walk-in-cold room, deep freezers and refrigerators.

## Microbiology Department

Department of Microbiology of is a multidisciplinary unit consisting of various branches which includes Bacteriology, Virology, Mycology, Immunology, Serology, Parasitology Mycobacteriology and is working throughout the clock. The department is equipped with good diagnostic facilities to provide services for both in –patients & outpatients of both general & super specialty hospitals. Diagnostics are the main stay of the department & all the sections are equipped with necessary basic & sophisticated instruments. All the serological tests will be done by using CLIA and ELISA methods. Every day we perform nearly 40-50 culture and sensitivity tests from various clinical specimens. Around 250 serological tests, 15-20 staining, 5-7 Parasitology and 2-3 mycology samples will be processed. The laboratory reports are dispatched to the respective wards, OP clinics of both broad & super specialties every day in time. **Well-equipped BSL2 lab with NABL accreditation and ICMR approval for COVID19 testing is functioning 9.00 AM -5.00 PM.** Rapid Antigen.

tests for COVID19 are being done with TAT around one hour. RT PCR tests are being done with TAT around 24-30 hours. Well trained technical staff is available to give quality and reliable reports. Other vital activities of the department are 1. Environmental surveillance of hospital 2. OT surveillance 3. Sterility check for blood bags from blood bank and sterility controls 4. Training programmes in hospital Infection Control Practices 5. Research mentoring for UG s, STS projects for ICMR. 6. 24x7 emergency laboratory services.

## PATHOLOGY DEPARTMENT

Department of pathology has been started in 1999 and has been rendering diagnostic services since then. Department of Pathology in central lab has spacious histopathology, hematology and clinical pathology laboratories. Cytology unit for performing fine needle aspirations, examining fluid cytology and exfoliative cytology is present in OP block.

Everyday we perform 250 – 300 hematology tests, 150 – 200 clinical pathology tests and 50 – 60 coagulation assays in our lab.

We are equipped with automated analyzers to provide quick and accurate reports (turnaround time – 4 hours) to the patients attending general and super specialty hospitals. Lab services are rendered throughout the clock.

## Other activities

Departmental staff also participate in camps conducted for screening of cervical cancer and breast cancer in and around Nellore area.

## REPORT ON ANIMAL HOUSE VISIT

DATE: 19/02/2020

### INTRODUCTION:

Animal House Facility is registered with Committee for the Purpose of Control and Supervision of Experiments on Animals (CPCSEA), Govt. of India, Ministry of Environment, Forest & Climate Change, Animal Welfare Division, New Delhi, vide Registration No.: 1859/PO/Re/16/CPCSEA

Two storied Animal facility established in 1999 and utilized for experimental research in accordance with the CPCSEA guidelines of the Government of India. It is a full air – conditioner and houses lab animals such as rats, mice, rabbits, and guinea pigs. The Animal House is a conventional type of animal house with each species housed in individual rooms, in which the temperature, humidity, dark and light cycles are monitored.

The animal house facility is available to boost the teaching, training, and research facilities and to meet the growing demand for high-quality laboratory animals in the emergent field of Experimental Pharmacology. Qualified veterinarians and technical personnel are always at hand to help carry out research.

### Objectives:

- To gain a knowledge on feeding and caring of animals
- To gain knowledge on dissections
- To develop the research skills

## REPORT ON HERBAL GARDEN VISIT

DATE: 21/02/2020

### INTRODUCTION:

The herb garden is often a separate space in the garden, devoted to growing a specific group of plants known as herbs. Herb gardens may be purely functional or they may include a blend of functional GARDENS the ornamental plants. The herbs are usually used to flavour food in cooking, though they may also be used in other ways, such as discouraging pests, providing pleasant scents, or serving medicinal purposes (such as a physic garden) among others.

### OBJECTIVES:

- To encourage and promote college to introduce the home herbal garden concept to students
- To inculcate a sense of familiarity from childhood with surrounding biodiversity and its conservation, especially herbal plants
- To educate student in identifying different types of herbs and their uses including growing them in a garden
- To encourage students to use herbs in food The competition has three major components
- Herbal Poster with recipe Use of herbs is increasing in cookery practices and forms an important dietary supplement.

### REPORT:

The permission had obtained from the principal and Herbal Garden Incharge. According to the schedule the students had went for the visit to the Herbal Garden. The students had visited all the herbal trees. They have observed the different kinds of

## REPORT ON CENTRAL LABORATORY VISIT

DATE: 07/07/2021

### INTRODUCTION:

The Central Clinical Laboratory (built area: 40,000 Sq.ft) – is operational since 1999 in the seventh floor of Narayana Super Specialty Hospital. It has three major divisions viz., Biochemistry, Microbiology and Pathology, offering diagnostic services (24/7/365 days) to patients and research services to students and faculties of Narayana Medical and allied colleges, as well to other institutions. Nearly 100 Laboratory professionals including – Consultants (Physicians), Scientists, Lab Technicians, Data entry operators and Sample Transport Messengers are involved in day to day services. The Central Lab has the following dedicated patient service areas such as – patient registration, blood collection room (accommodates 6 patients in a given time), urine and stool collection rooms.

In addition to its diagnostic services; lab supports academic activities such as teaching the principles and standard operating procedures (SOP) of a clinical lab to the medical

NELLORE - 524 003.

and para-medical under-graduates. They were also given hands on experience on instrument operation, data-collection and -interpretation.

### OBJECTIVES:

- To improve knowledge on laboratory equipment's, procedures and normal values.
- Providing students functional opportunity in laboratory.
- To provide students an insight of the practical applications of what they are learning in theory.
- To develop state of art facility, in terms of quality infrastructure & trained manpower which enables the students of various UG& PG courses to appreciate the basic etiology, Immuno-pathogenesis & diagnosis of common infectious diseases.
- To impart teaching programs for undergraduates and post graduates.
- To deliver quality, timely, accurate diagnostic services to all the patients.
- To create an environment for "Need Based Quality Research" among Students"
- To provide students with an opportunity to learn practically through interaction and working methods.

## REPORT:

The permission letter was obtained from Principal of Narayana College of Nursing and Lab Incharge, as per requirement of nursing students are divided according to the year. Each day one to two batches had went for the visit to the laboratory. Students had taken notes of the observation visit and they gained knowledge related to central laboratory that equipments present in the lab, and need of the laboratory, and the normal values of the each and every department. The student can also gain knowledge regarding process and procedure of performing laboratory investigations.

### Divisions of Central Clinical Laboratory

1. Front office/Reception
2. Sample Collection/Phlebotomy section
3. Clinical Biochemistry
4. Clinical Pathology
5. Clinical Microbiology
6. Data entry section

**Front office/Reception:** the sample registration, collecting the samples, distributing to all departments and reports of each department will be distributed to the needy.

**Sample Collection/Phlebotomy section:** the area sample will be collected by performing the phlebotomy.

**Department of Clinical Biochemistry:** The Department of Clinical Biochemistry functions round the clock from its time of inception (1999) to offer quality diagnostic services to our patients and also supports student and faculty research activities. It's skilled lab technicians works tirelessly to cover more than 60% load of the entire clinical lab. Nearly 200 different types of investigations were carried out on daily basis in different division of Clinical Biochemistry – namely –

- I. Emergency Investigation Division – Diagnostic tests for critical patients were done 24 x 7
- II. Routine Chemistry Division – Routine biochemical tests were done for both In- & Out- patients; the division serves 24 h, 7 days in a week throughout the year.
- III. Immunoassay Division – This division operates 12 h day time each day in a year to estimate endocrine and metabolic hormones in patient's samples. As well qualitatively and quantitatively measures tumor markers, vitamins and other markers (IL-6, CK-MB etc).

The chemicals and reagents required for the diagnosis were stored in the walk-in-cold room, deep freezers and refrigerators.

### Microbiology Department

Department of Microbiology of is a multidisciplinary unit consisting of various branches which includes Bacteriology, Virology, Mycology, Immunology, Serology, Parasitology Mycobacteriology and is working throughout the clock. The department is equipped with good diagnostic facilities to provide services for both in -patients & outpatients of both general & super specialty hospitals. Diagnostics are the main stay of the department & all the sections are equipped with necessary basic & sophisticated instruments. All the serological tests will be done by using CLIA and ELISA methods. Every day we perform nearly 40-50 culture and sensitivity tests from various clinical specimens. Around 250 serological tests, 15-20 staining, 5-7 Parasitology and 2-3 mycology samples will be processed. The laboratory reports are

dispatched to the respective wards, OP clinics of both broad & super specialties every day in time. **Well-equipped BSL2 lab with NABL accreditation and ICMR approval for COVID19 testing is functioning 9.00 AM -5.00 PM.** Rapid Antigen tests for COVID19 are being done with TAT around one hour. RT PCR tests are being done with TAT around 24-30 hours. Well trained technical staff is available to give quality and reliable reports. Other vital activities of the department are 1. Environmental surveillance of hospital 2. OT surveillance 3. Sterility check for blood bags from blood bank and sterility controls 4. Training programmes in hospital Infection Control Practices 5. Research mentoring for UG s, STS projects for ICMR. 6. 24x7 emergency laboratory services.

#### **PATHOLOGY DEPARTMENT**

Department of pathology has been started in 1999 and has been rendering diagnostic services since then. Department of Pathology in central lab has spacious histopathology, hematology and clinical pathology laboratories. Cytology unit for performing fine needle aspirations, examining fluid cytology and exfoliative cytology is present in OP block.

Everyday we perform 250 – 300 hematology tests, 150 – 200 clinical pathology tests and 50 – 60 coagulation assays in our lab.

We are equipped with automated analyzers to provide quick and accurate reports (turnaround time – 4 hours) to the patients attending general and super specialty hospitals. Lab services are rendered throughout the clock.

#### **Other activities**

Departmental staff also participate in camps conducted for screening of cervical cancer and breast cancer in and around Nellore area.

## REPORT ON ANIMAL HOUSE VISIT

DATE: 19/02/2021

### INTRODUCTION:

Animal House Facility is registered with Committee for the Purpose of Control and Supervision of Experiments on Animals (CPCSEA), Govt. of India, Ministry of Environment, Forest & Climate Change, Animal Welfare Division, New Delhi, vide Registration No.: **1859/PO/Re/16/CPCSEA**

Two storied Animal facility established in 1999 and utilized for experimental research in accordance with the CPCSEA guidelines of the Government of India. It is a full air – conditioner and houses lab animals such as rats, mice, rabbits, and guinea pigs. The Animal House is a conventional type of animal house with each species housed in individual rooms, in which the temperature, humidity, dark and light cycles are monitored.

  
Principal  
NARAYANA COLLEGE OF NURSING  
Chinthareddypalem,  
NELLORE - 524 003.

The animal house facility is available to boost the teaching, training, and research facilities and to meet the growing demand for high-quality laboratory animals in the emergent field of Experimental Pharmacology. Qualified veterinarians and technical personnel are always at hand to help carry out research.

#### Objectives:

- To gain a knowledge on feeding and caring of animals
- To gain knowledge on dissections
- To develop the research skills

## REPORT:

The permission had obtained from the principal and animal house incharge. According to the schedule the students had went for the visit to the animal house. The students had visited all the animals in the animal house. They have observed the feeding pattern, dissections in animals, and how the research activities will be carried out in the animals. The students had given the feed back that the visit is very interesting and helpful in research activities.

## REPORT ON HERBAL GARDEN VISIT

DATE: 21/02/2021

### INTRODUCTION:

The herb garden is often a separate space in the garden, devoted to growing a specific group of plants known as herbs. Herb gardens may be purely functional or they may include a blend of functional GARDENS the ornamental plants. The herbs are usually used to flavour food in cooking, though they may also be used in other ways, such as discouraging pests, providing pleasant scents, or serving medicinal purposes (such as a physic garden) among others.

### OBJECTIVES:

- To encourage and promote college to introduce the home herbal garden concept to students
