REPORT ON DENTAL POSTING

During the interdisciplinary posting at the dental college from February 12 to 17, 2024, I had the opportunity to deepen my understanding of oral health care and its vital role in overall patient wellness.

OBJECTIVES :-

- * The main objectives of this posting were to enhance my confidence in performing oral examination.
- * Develop effective communication skills with patients and learn to collaborate with dental professionals.
- * Throughout the week, I shadowed dental students during clinical sessions, participated in hands-on workshops focused on oral health assessments.
- * And Engaged in community outreach to educate the public on proper oral hygiene practices.

D.V.R. Prasad
Principal

Ph No: 0861-2317969 | Fax: 0861-2311968.

e-mail: narayana_nursing@yahoo.co.in | principal.ncn@narayanannursingcollege.com

website: <https://www.narayanannursingcollege.com>

* This experience significantly improved my practical skills and reinforced the importance of interdisciplinary collaboration in providing holistic patient care.

PLAN OF ACTION :-

- To support a tooth's remaining structure and help restore it after damage and decay.
- ⇒ To help keep teeth strong and stable.
- ⇒ To maintain good oral hygiene.
- ⇒ To strengthen teeth after a root canal.
- To reduce dental caries.

VISIT REPORT

I am posted in Narayana Dental College and hospital for 1 week from 12/2/2024 to 17/2/2024 as a part of our medical surgical requirement. I was sent to the Department of oral and maxillofacial surgery which is

Dr. B. J. Prasad

divided into 2 units. The exodontia/ under graduate unit and the post graduate unit.

The department is ready to deal with all sorts to treatment right from exodontia to emergencies of all sorts. The high lights of the department include the state of the art facility for major surgeries. The modern equipments are available in this department through this I gain more knowledge regarding Maxillofacial trauma Temporomandibular joint disorders, Dental implants etc.

Report on Dental posting:

As a part of our medical surgical Nursing requirements, I was posted in Narayana dental college and Hospital for 1 week from 1-8-2022 to 14-8-2022. Through this posting we are able to improve our knowledge regarding dental care.

OBJECTIVES

- To improve effective oral health care, particularly for older people.
- To gain confidence on oral examinations.
- To perform oral care for patients with oral pathology.
- To develop communication skills on oral health.

B. Anuraj
Principal
NARAYANA COLLEGE OF NURSING
Chinthareddypalem,
NELLORE - 524 003

PLAN OF ACTION:

- to enhance adequate oral health care for older peoples.
- to enhance the communication
- to maintain good oral hygiene
- to gain confidence and knowledge on oral examination.

VISIT REPORT:

I am posted in Narayana Dental college and hospital for 1 week from 1-8-2022 to 14-8-2022 as a part of our Medical Surgical Nursing requirement. I was went to the department of oral Medicine and radiology, the most of the Medical disease can be diagnosed by a careful examination of the oral cavity. They try to

Principal
NARAYANA COLLEGE OF NURSING
Chinthareddypalem

to students for helping in early detection and diagnosis of underlying systemic disease in dental caries patients and also train them in the medical treatment. Some of the facilities are conventional intraoral radiography. Machines, intra-oral camera etc.

From
The Principal,
Narayana College of Nursing,
Chinthareddypalem, Nellore

To
The Principal,
Narayana Dental College and Hospital,
Chinthareddypalem, Nellore.

Dear Sir,

Kindly Provide permission for II B.Sc. (N) and I PBBS. Nursing students to have a dental clinical experience at Narayana Dental College Hospital from 10.06.2019 to 06.07.2019 on a rotation basis. This interdisciplinary training will enhance their understanding of oral health care and improve collaboration with dental professionals.

Thank you for considering this request. I look forward to your approval.

Paithl.

Yours Sincerely

MEDICAL SURGICAL NURSING (Adult Including Geriatrics)-I

Placement: Second Year

Time : Lecture/Lecture demonstration – 210 hours

Practical – 720 hours

Course Description : The purpose of this course is to acquire knowledge and develop proficiency in caring for patients with medical and surgical disorders in varieties of health care settings and at home.

Learning Objectives :

- Appreciate the trends in medical and surgical nursing
- Describe the role of a nurse in caring for adult patient in hospital and community
- Describe the concepts of medical surgical asepsis
- Describe the common signs, symptoms, problems and their specific nursing interventions
- Describe the etiology, pathophysiology, clinical manifestations, diagnostic measures, and management of patients (adults including elderly) with disorders of respiratory systems, digestive systems, genito-urinary system, male reproductive system, endocrine system, integumentary system, musculoskeletal system, immunological system & communicable diseases
- Describe the etiology, pathophysiology, clinical manifestations, diagnostic measures, and management of patients (adults including elderly) with blood and cardio vascular problems
- Describe the vascular conditions and its nursing management
- Describe the organization and physical set up of operation theatre
- Identify the various instruments and equipments used for common surgical procedures
- Describe the infection control measures in the operation theatre
- Describe the role of the nurse in the peri operative nursing care

UNIT – 4

Hours: 30

Nursing Management of Patient (Adults Including Elderly) with Disorders of Digestive System:

- Review of anatomy and physiology of digestive system
- Nursing assessment-history and physical assessment
- Etiology, pathophysiology, clinical manifestations, diagnosis, treatment modalities and medical, surgical, dietetics & nursing management
- **Disorders of**
 - **Oral cavity – lips, gums, tongue, salivary glands and teeth**
 - Oesophagus-inflammation, structure, obstruction, bleeding and tumours.
 - Stomach and duodenum-hiatus hernia, gastritis, peptic and duodenal ulcer, bleeding, tumours, pyloric stenosis.
 - Small intestinal disorders-inflammation and infection, enteritis, malabsorption, obstruction, tumours and perforation.
 - Large intestinal disorders- colitis, inflammation and infection, obstruction tumours and lump
 - Hernias
 - Appendix – inflammation, mass, abscess, rupture.
 - Anus & rectum, hemorrhoids, fissures, fistulas.
 - Peritonitis/acute abdomen
 - Pancreas; inflammation, cyst, abscess and tumours
 - Liver: inflammation, cyst, abscess, cirrhosis, portal hypertension, hepatic failure, tumours
 - Gall bladder: inflammation, obstruction, stones and tumours
- Special therapies, alternative therapies
- Nursing procedures
- Drugs used in treatment of disorders of digestive system

INDIAN NURSING COUNCIL**NOTIFICATION**

New Delhi, the 5th July, 2021

[INDIAN NURSING COUNCIL {REVISED REGULATIONS AND CURRICULUM FOR B.SC. (NURSING) PROGRAM), REGULATIONS, 2020]

F.No. 11-1/2019-INC.—In exercise of the powers conferred by sub-section (1) of Section 16 of the Indian Nursing Council Act, 1947 (XLVIII of 1947), as amended from time to time, the Indian Nursing Council hereby makes the following regulations namely:—

SHORT TITLE AND COMMENCEMENT

- i. These Regulations may be called The Indian Nursing Council (Revised Regulations and Curriculum for B.Sc. (Nursing) Program) Regulations, 2020.
- ii. These Regulations shall come into force on the date of notification of the same in the official Gazette of India.

DEFINITIONS

In these Regulations, unless the context otherwise requires,

- i. 'the Act' means the Indian Nursing Council Act, 1947 (XLVIII of 1947) as amended from time to time;
- ii. 'the Council' means the Indian Nursing Council constituted under the Act of 1947;
- iii. 'SNRC' means the State Nurses and Midwives Registration Council by whichever name constituted and called by the respective State Governments;
- iv. 'B.Sc. (Nursing)' means the four year B.Sc. (Nursing) Degree qualification in Nursing recognized by the Council under Section 10 of the Act and included in Part-II of the Schedule to the Act;
- v. 'Authority' means a University or Body created by an Act for awarding the B.Sc. (Nursing) qualification recognized by the Council and included in Part-II of the Schedule to the Act;
- vi. 'School of Nursing' means a recognized training institution for the purpose of teaching of the GNM course;
- vii. 'College' means a recognized training institution for the purpose of training and teaching of the B.Sc. (Nursing) course;
- viii. 'CNE' means Continuing Nursing Education to be compulsorily undergone by the RN&RM/ RANM/RLHV for renewal of registration after every 5 (five) years.

I. INTRODUCTION OF THE PROGRAM

The B.Sc. nursing degree program is a four-year fulltime program comprising eight semesters, which prepares B.Sc. nursing graduates qualified to practice nursing and midwifery in a variety of settings in either public/government or private healthcare settings. It adopts credit system and semester system as per the Authority guidelines with minor modifications suitable to professional education in a hybrid form. The program encompasses foundational, core and elective courses. The choice-based system is applicable to electives only and is offered in the form of modules. Modular learning is also integrated in the foundational as well as core courses that is mandatory.

The program prepares nurses and midwives for generalist nursing including midwifery practice. Knowledge acquisition related to wellness, health promotion, illness, disease management and care of the dying is core to nursing practice. Mastery of competencies is the main focus. Students are provided with opportunities to learn a whole range of skills in addition to acquiring knowledge related to nursing practice (nursing and midwifery). This is achieved through learning in skill lab/simulated lab and clinical environment. Simulation will be integrated throughout the curriculum wherever feasible to enable them to develop competencies before entry into real field of practice.

The revised curriculum embraces competency-based and outcome-based approach throughout the program integrating mastery learning and self-directed learning. Transformational and relationship based educational approaches are emphasized. Through the educational process the students assimilate and synthesize knowledge, cultivate critical thinking skills and develop care strategies. Competencies that reflect practice standards of the Council address the areas of cultural diversity, communication technology, teamwork and collaboration, safety, quality, therapeutic interventions and evidence-based practice. They are prepared to provide safe and competent care to patients across life span and influence patient outcomes.

ADULT HEALTH NURSING - I WITH INTEGRATED PATHOPHYSIOLOGY (including BCLS module)**PLACEMENT:** III SEMESTER**THEORY:** 7 Credits (140 hours)**PRACTICUM:** Lab/Skill Lab (SL) – 1 Credit (40 hours) Clinical – 6 Credits (480 hours)

DESCRIPTION: This course is designed to equip the students to review and apply their knowledge of Anatomy, Physiology, Biochemistry and Behavioral sciences in caring for adult patients with Medical/Surgical disorders using nursing process approach and critical thinking. It also intends to develop competencies required for assessment, diagnosis, treatment, nursing management, and supportive/palliative care to patients with various Medical Surgical disorders.

COMPETENCIES: On completion of Medical Surgical Nursing I course, students will be able to

1. Explain the etiology, pathophysiology, manifestations, diagnostic studies, treatments and complications of common medical and surgical disorders.
2. Perform complete health assessment to establish a data base for providing quality patient care and integrate the knowledge of anatomy, physiology and diagnostic tests in the process of data collection.
3. Identify nursing diagnoses, list them according to priority and formulate nursing care plan.
4. Perform nursing procedures skillfully and apply scientific principles while giving comprehensive nursing care to patients.
5. Integrate knowledge of pathology, nutrition and pharmacology in caring for patients experiencing various medical and surgical disorders.
6. Identify common diagnostic measures related to the health problems with emphasis on nursing assessment and responsibilities.
7. Demonstrate skill in assisting/performing diagnostic and therapeutic procedures.
8. Demonstrate competencies/skills to patients undergoing treatment for medical surgical disorders.
9. Identify the drugs used in treating patients with medical surgical conditions.
10. Plan and give relevant individual and group education on significant medical surgical topics.
11. Maintain safe environment for patients and the health care personnel in the hospital.
12. Integrate evidence-based information while giving nursing care to patients.

Medical Surgical Nursing

Placement: First Year

Time Allotted : Theory - 90 Hrs
Practical - 270 Hrs

COURSE DESCRIPTION

The purpose of this course is to widen the students' knowledge and develop proficiency in caring for patients with medical surgical problems. This course includes review of relevant anatomy and physiology, pathophysiology in medical-surgical disorders and the nursing management of these conditions.

OBJECTIVES

At the end of the course, the student will

1. Explain relevant Anatomy and Physiology of various systems of the body.
2. Explain pathophysiology of various disorders.
3. Explain the actions, side effects and nursing implications in administering drugs for various disorders.
4. Discuss the recent advancement in the treatment and care of patients with medical surgical conditions.
5. Develop skill in giving comprehensive nursing care to patients following the steps of nursing process.
6. Assist the patients and their families in identifying and meeting their own health needs.
7. Appreciate the role of the nurse in the medical-surgical health team.

34

UNIT I

- Introduction to medical surgical nursing.
- Review of concepts of comprehensive nursing care in medical surgical conditions.
- Nurse, patient and his/her family.
- Functions of nurse in the outpatient department.
- Intensive care unit.

UNIT II

- Nursing management of patient with specific problems.
 - Fluid and electrolyte imbalance.
 - Dyspnea and cough, respiratory obstruction
 - Fever
 - Shock
 - Unconsciousness
 - Pain
 - Acute illness
 - Chronic illness
 - Terminal illness
 - Age related illness
 - Patient under going surgery
 - Incontinence

UNIT III

- Nursing management of patient with neurological and neuro-surgical conditions.
- Review of anatomy and physiology of the nervous system.
- Pathophysiology, diagnostic procedures and management of :
 - Cerebro-vascular accident.
 - Cranial, spinal and peripheral neuropathies.
 - Head-ache and intractable pain.
 - Epilepsy.
 - Infectious and inflammatory diseases and trauma of the Nervous System.

NARAYANA COLLEGE OF NURSING
Chinthareddypalem,
NELLORE - 524 003

Recent advances in diagnostic and treatment modalities.
 - Drugs used in these disorders.
 - Tumors of brain & spinal cord, congenital malformations, degenerative diseases.

UNIT IV

- Nursing management of patient with cardiovascular problems.
- Review of relevant anatomy and physiology of cardio vascular system.
- Pathophysiology, diagnostic procedures and management of
 - Ischemic Heart diseases.
 - Cardiac arrhythmias.
 - Congestive heart failure.
 - Rheumatic and other valvular heart diseases
 - Endocarditis, cardiomyopathies, congenital heart diseases, hypertension, heart block
 - Cardiac emergencies: cardiac arrest, acute pulmonary oedema, cardiac tamponade, cardiogenic shock, aneurysms and peripherovascular disorders, recent advancement in cardiology.

UNIT V

- Nursing management of patient with respiratory problems.
- Review of anatomy and physiology of respiratory system, Pathophysiology, diagnostic procedures and management of upper respiratory tract infections.
 - Bronchitis
 - Asthma
 - Emphysema, Empyema, Atelectasis, COPD
 - Bronchiectasis
 - Pneumonia
 - Pulmonary tuberculosis
 - Lung abscess
 - Pleural effusion
 - Tumours and Cysts

Respiratory arrest and insufficiency
 Pulmonary embolism
 Drugs used in the management of these patients
 Special respiratory therapies.

UNIT VI

- Nursing management of patient with genito-urinary problems.
- Review of anatomy and physiology of the genito-urinary system
 - Nephritis
 - Renal calculus
 - Acute renal failure
 - Chronic renal failure
 - End stage renal disease
- Special procedures, dialysis, renal transplant
- Drugs used in management of these patients
- Congenital disorders, urinary infections
- Benign prostate hypertrophy.

UNIT VII

- Nursing management of patients with problems of the digestive systems.
- Review of anatomy and physiology of gastrointestinal system and accessory organs.
- Pathophysiology, diagnostic procedures and management of
 - G.I. Bleeding
 - Peptic ulcer
 - Infections
 - Acute abdomen
 - Colitis, diarrhoea, dysentery & mal-absorption syndrome.
 - Cholecystitis
 - Hepatitis, hepatic coma and cirrhosis of liver
