DIABETIC & HYPER TENSION CLINIC REPORT

Introduction: Our main aim remains strong, and that is to provide high end good health care to the needy and the underprivileged for free. Our team, thus, organizes clinic at these every month to cater to these needs. On these clinic we clinically check each and every Individual for diabetic problems and hypertension. We then make a data base of the patient's names and diagnosis. This data base is then referred to once we call them for their treatment specific appointments.

AIM:

The main objective of the clinic is to provide basic health education to the Public and motivate Good health maintenance.

OBJECTIVES:

1. This clinic is carried out with the curiosity to find out the prevalence of diabetic & hypertension problems in old age home with delicious dentition and clearly dentition and early mixed dentition.
2. To identify the method to motivate to manage the Health problems and cultivate maintenance of good health for the future society.

Description about the old age home :

Narayana College of Nursing has visited the old age home in venkatachalam, total 50 elder people are staying in old age home and because half of the elder people are unaware of how to manage diabetic problems, the department faculty initiated a diabetic clinic in the old age home.

website: <https://www.narayanannursingcollege.com>

Activity report: A Diabetic & hypertension clinic and Awareness program was held by the Department of Community Health Nursing on 8th July 2021 at 10 am onwards. The clinic was conducted for 25 Diabetic & Hypertension patients. A diagnostic check-up was done, following which the required treatment module was explained, some of the medicines are distributed to the patients, which was sponsored by the Narayana Rural Health center. Diabetic awareness was given to the patients.

Activities conducted:

- ❖ Health education program on diabetic & Hypertension problems- health education has given about diabetic & Hypertension problems, and diabetic diet.
- ❖ Health examination- for the diabetic & Hypertension patients health problems identified by the doctor
- ❖ Conducted pre-training test and post training test there was given questions to the patients and they were given answers and 90% of the elder people are not aware about the diabetic camp.

Conclusion:

The Narayana College of Nursing's most significant awareness clinic is the Diabetic & Hypertension camp. It is the responsible of the entire public to manage their health issues. People in the old age home were encouraged to practice healthy habits. Thus, the students of Narayana College of Nursing have taken a first step toward raising awareness.

RURAL AREA MAPPING

Community mapping of the rural area at Venkatachalam is done to aid the smooth delivery of health care services. It is done to identify the prevalence of diseases and to identify the needs of the particular population, based on the findings nursing care services are planned to promote the health of the community people. The student during the community posting they follow the route mapping, visit the allotted house in order to provide appropriate care to the identified member in the family.

4 steps - Community Mapping

Pre mapping

Mapping

Taking action

Maintaining, Sustaining, and Evaluating Mapping Efforts

Pre mapping:

The pre-mapping step allows the necessary partners to come together and establish a purpose and overall direction for the mapping activity. Specifically, during the pre-mapping step, we can identify and secure key stakeholders and define the vision and goals for aligning community resources. Establishing clear

communication in the beginning will make it easier to achieve your long-term goal of aligning and streamlining community resources. This section will highlight strategies to establish a task force for your mapping efforts and how to set a realistic vision and goals

Objectives of Community Mapping:

The basic objectives to Community Mapping

- ❖ To collect the data in order to create a map of community assets and resources in venkatachalam .
- ❖ To highlights venkatachalam people physical structures, organizations, and institutions.
- ❖ To gain in-depth information.

VENKATACHALAM RURAL COMMUNITY SURVEY REPORT 2021-22

INTRODUCTION:

The students of final year B.Sc Nursing students of Narayana College of Nursing, were posted to the Rural Health Center, Venkatachalam village, about 10 kms from the college for community health nursing field experience. The students were divided into 3 groups:

1. Survey group
2. Student activity group
3. Health center activity group.

General Description of the Community:

Genesis:

According to collected history, Venkatachalam is a Mandal in Spsr Nellore District of Andhra Pradesh State, India. Venkatachalam Mandal Head Quarters is Venkatachalam town. It belongs to Andhra region.

Family folder system is followed to ensure continuity of home care and documentation. Families are assessed and educated on appropriate health care and responsible family member is demonstrated on homecare of chronically ill clients. The nursing students are posted along with the staff and Nursing supervisors for Home visits, clinics and special programmes.

SARASWATHI NAGAR URBAN COMMUNITY SURVEY REPORT

2021-22

Community survey is essential for planning, implementation, evaluation and for taking related decision of health and community services. It is a regular and continuous process. It is an important tool to determine the health status of an individual, families, community or nation.

During community health nursing postings at Saraswathi Nagar Urban Community Health Center, students have done community survey to identify socio-demographic status, and health status including mental health problems of community for the period of one week. The major elements of community survey were analyzed and presented in this report.

The Narayana Urban Health Center is the full fledged community unit of Narayana, Situated Ssrswathi Nagar Area about 5 Kms, Away from Narayana College of Nursing campus, Nellore. Narayana Urban Health center offers out-patient, in-patient services .

II. Objectives for conducting survey:

The objectives for doing this rural community survey are following:

- ❖ To interact directly with the people belonging to community .
- ❖ To assess the socio demographic status and health status of community.

HEALTH EDUCATION REPORT ON HYPERTENSION DIET

Date: 20.7.2021

Time: 10 to 11 am

Organizers: Department of Community Health Nursing, Narayana College of Nursing.

Venue: Old age Home, Venkatachalam, Nellore.

Beneficiaries: Elder people.

A.V Aids is used: Flash cards, Models, Chart

Objectives:

1. To increase awareness to the elder people about Hyper tension diet.
2. To increase public awareness about precautions of hyper tension.
3. To improve the knowledge about preventive measures of Hypertension.

Report:

Narayana College of Nursing 4th year B.Sc (N) students conducted a health education programme on Hypertension diet. The students conducted a survey in the old age home before the day and found that the people were unaware of Hypertension diet and preventive measures. So they devised a health education programme. In the health education programme, Students gathered the entire group and thoroughly explained the Hypertension disease condition, effects, preventive measures, diet. For effective understanding, the students used various types of AV Aids. The Group was given refreshments at the end of the programme

SCHOOL HEALTH PROGRAMMME REPORT

Children as change agents been utilized by the health industry to streamline the society in a couple of occasions and several research articles do proclaim the strength of this approach. Keeping this view in mind the students of our institutes are being asked to visit the schools in the local community as a part of their field visits. The students of IV year BSC Nursing Students conducted the School health Programme on 26-07-2021 at Government High School, Venkatachalam, Nellore.

OBJECTIVES:

- ❖ Promotion of positive health
- ❖ Prevention and control of diseases
- ❖ Screening, Early diagnosis and follow up
- ❖ Awakenning health consciousness among school children
- ❖ Process of program being implemented.

Activities conducted:

- ❖ Physical assessment- method is used in the physical examination that is inspection, palpation, percussion, auscultation.
- ❖ Vital parameters- Oxygen saturation, Hydration, Capillary refill time, Blood pressure, Respiration, Arterial pulse, Temperature
- ❖ Including anthropometric examination that is height, weight, abdomen circumference, chest circumference of 57 school children.

- ❖ Health education regarding the personal hygiene and Good health habits.
- ❖ Conducted health awareness programme through using variety of audio visual aids.

The Programme started at 11 am by invoking God's blessings through a prayer song led by students of Government High School. Ms Anugraha, IV year BSC welcomed the gathering.

Prof. Vanaja Kumari, addressed the students regarding Personal hygiene, the importance of hand washing and Nutrition food. She emphasized these measures mainly to prevent Various infections. Mrs. Anusha Faculty of Community Health Nursing Department spoke regarding the importance of health. The teaching faculty of Narayana College of Nursing was actively involved in the programme.

The students performed a role play on Personal Hygiene, Menstrual Hygiene, Nutrition, Adolescent Mental Health, and Sexually Transmitted Infections and described the importance of personal hygiene using various audio-visual aids.

A vote of thanks was delivered by Ms Pushpa of IV year BSC . Refreshments were distributed to the gathering. The programme was completed by Mrs. Anusha. Around 95 were the beneficiaries of the programme.
