NURSES: THE BACKBONE OF HEALTH CARE.

The advancement of technology in health care has led to hospitals adopting sophisticated medical equipment and intensive care units, which has increased patient loads and pressure to treat more people quickly. The demand for skilled and specialized nurses has risen in response to this challenge both in India and abroad. Narayana College of Nursing aims to meet this demand by preparing nurses for professional practice, teaching them principles of caring, excellence, and integrity in a nurturing learning environment.

As demographic changes are expected to worsen the shortage of nurse aides in health care settings, there will be a tremendous demand for specialized nursing professionals in the future. A sojourn with Narayana College of Nursing opens up immense prospects for students to become highly skilled professionals and thrive in the ever-growing health care setting.

VISION

Narayana College of Nursing will be an universal leader for innovations, research, education, attitude and practice to create positive changes in all health care settings and outcomes.

MISSION

We are catalysts for optimizing health through nurse led health care by integrating education, application, research and technology to create innovative solutions and to prepare nurses for global nursing care to improve health for all.
